

**The first nozzle  
specifically designed for  
customer comfort.**

Lightweight and balanced,  
the Ergo nozzle was designed for  
easy one-handed operation  
by any user.

**Engineered with materials  
that maximize the working  
life of the nozzle.**

The Ergo nozzle underwent 3 million  
cycles of testing —  
three times the test cycles conducted  
on competitor nozzles.

**The lowest pressure drop  
and the highest flow rate  
of any nozzle.**

The lower the pressure drop,  
the higher the flow rate.  
And the higher the flow rate,  
the faster the fill-up.

**The first new  
nozzle design  
in 90 years.**

Starting from scratch, Gilbarco  
engineers created the Ergo.  
Inspired by, and designed for,  
the human hand.

PERFORMANCE  
IN HAND

**The Gilbarco Veeder-Root Ergo**

Sleek. Streamlined. Comfortable.  
With the highest flow rate of any nozzle.
