

## Solid-State (Optical) Discriminating Interstitial Sensor for Double-Wall Fiberglass Tanks Specifications

| Sensor Description                   | Solid-State (Optical) Discriminating<br>Interstitial Sensor for Double-Wall<br>Fiberglass Tanks |                                                           | The Discriminating Interstitial Sensor for Double-Wall Fiberglass Tanks uses solid-state liquid level sensing technology to detect liquid in the interstitial space of the tank. |                                                          |                                     |                    |  |
