

*Let's say a customer with a twenty dollar bill wants to buy a delightful self-serve gourmet coffee –*  
**AND PREPAY THE REST FOR FUEL.**

*Don't grab your calculator. Just follow these simple steps.*

### FROM THE CASHIER WORKSTATION:

1. Always start by ringing up the store item first.

2. Select the "Pump", then tap the "Prepay" button.

3. Then tap "Rest in Fuel" button.

Rest In Fuel

4. Enter the Cash amount from the customer, for example, select the 20-dollar payment.

5. Passport will automatically calculate the fuel preset amount left from the payment amount and apply the balance as the pump preset.
