## TURN OFF SIGNATURE CAPTURE

Limit customer's contact with pin pads to increase checkout speed and keep the device clean. **HERE'S HOW.**

FROM THE MANAGER WORKSTATION:

1. Select "Set Up" — Set Up

2. Then "Register" — Register

3. Then "Register Set Up" — Register Set Up

4. Select the register you want, and select "Change". — Change

1	POSSERVER01	Cashier Workstation
2	POSCLIENT001	Express Lane
3	POSCLIENT002	Express Lane
99	POSServer01	

5. Find the "Device Configuration" section and uncheck the "Electronic Signature" option.

Device Configuration
☐ Electronic Signature

6. Select "Save" — Save — *and "Exit"* — Exit — *to head back to the cashier workstation.*

NOW CUSTOMERS DON'T HAVE TO PROVIDE A SIGNATURE. **DOES ANYONE REALLY SIGN THEIR NAME ANYWAY?**
