

To use the Passport Express Lane Self-Checkout – a customer simply scans the item.  
**ANYONE CAN DO IT.**

#### FROM THE CASHIER CONTROL CONSOLE:

1. To use the self-checkout – a customer simply scans the item and places it in the bagging area.

**NOTE:** The cashier will see the customer's scanned item(s) appear on the Cashier Control Console at the front counter.

2. If an item doesn't have a barcode – convenient speed keys and an item look-up tool help guide the customer through the process.

3. Once all the items are scanned, the customer taps **Pay** to move the transaction forward.

4. If the **Round Up** feature is enabled, the customer will be asked to round their total up to the next dollar for charity.

5. Now the customer is ready to swipe or tap their card or mobile device to complete the transaction and be on their way.

SOUNDS EASY RIGHT? **THAT'S BECAUSE IT IS.**
