Single-Piece Crystal Design

Overview

Veeder-Root has replaced the single-piece, thick, silk-screened crystals with a two-piece, thin, clear crystal with a painted, laser-etched aluminum dial. These crystals are used on mechanical meter registers to indicate the units of measurement. Functionality will remain the same between the two versions. This change was made to save time in the manufacturing process.

► Thin Crystals/Dials

These new, two-piece crystals/dials will use the same part numbers as the equivalent older, single-piece crystals.

▶ Obsoleted Crystals/Dials

The following crystals have been obsoleted. Veeder-Root will accept a last time ordered until **September 30, 2022**.

There will be a minimum order of 20 crystals per part number. Crystal orders will start to be filled after **September 30, 2022**.

Note: Any company logos will not be silk-screens onto the crystals. In the table is a replacement reference you can use for future orders after the last time order date.
