TLS-450PLUS Console 08600x1-301 Part Numbers

Overview

Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leader in the development of fueling system technology, we view product End of Life (EOL) as part of the natural cycle that drives technology evolution.

TLS-450PLUS consoles with 08600x1-30**1** part numbers that feature a Dual RS-232 connection are being phased out. The last time buy date will be **November 30, 2022**.

Veeder-Root has decided to standardize on the TLS-450PLUS consoles with 08600x1-30**2** part numbers. The -302 consoles feature a Dual RS-232/RS-485 port and are positioned in the market to better address evolving port connection requirements. Options are available to add supplemental RS-232 Interface Modules if necessary.

▶ Transition Details

We recommend customers transition to the Veeder-Root TLS-450PLUS console with the Dual RS-232/RS-485 port as soon as possible.

If a second RS-232 connection is needed, we recommend ordering an additional RS-232 Communication Card. The following Module Compatibility can be found in the TLS Price Book, which helps customers determine which slot to put the communication card in.

TLS-450PLUS Module Compatibility
