

A fully customizable user experience with dynamic multi-media — all in a compact footprint

KEY BENEFITS

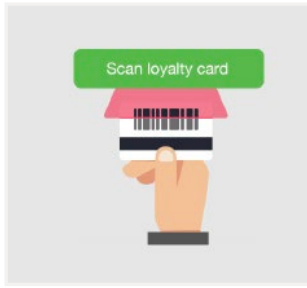

- Retrofit into existing pump, kiosk or stand; any brand
- Faster, more flexible payment options for all customers
- A consistent customer experience across all sites
- Open platform; explore new revenue opportunities for outstanding ROI
- Protects you and your customers against fraudulent attacks
- Wide range of applications; indoor/outdoor, attended/unattended
- Barcode scanning for loyalty redemption (optional)

FlexPay 6 A1-05 OPT

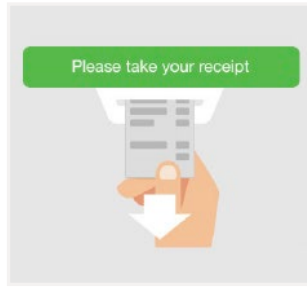

The Invenco® FlexPay 6 A1-05 Outdoor Payment Terminal (OPT) is an industrial multimedia device, tailor-made for the outdoors. It provides an amazing array of features at a remarkable price, including: contactless as standard, full audio, high-res touchscreen, thermal printer and optional barcode scanner. The FlexPay 6 A1-05 OPT supports a wide range of payment options including: debit, credit, contactless, mobile, loyalty, vouchers, and coupons. Carefully size, the OPT is a small enough to fit any standard pump head, kiosk or pedestal, yet large enough for a graphical screen. Use it to display easy-to-follow user prompts, promotional advertising, and encourage upsell.

KEY FEATURES

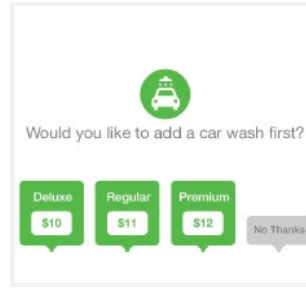

- PCI 5.x with SRED (pending the PCI 6 release)
- Small footprint, flexible mounting options
- High speed transactions
- Credit, debit, EMV, contactless, loyalty and fleet cards
- Contactless payment as standard
- Full VGA multimedia display
- Integrated thermal printer & paper cutter
- Optional integrated barcode scanner
- Fully compliant for use on fuel forecourts

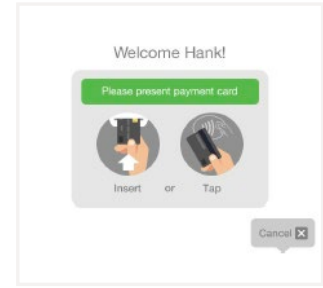

Barcode scanning for loyalty redemption

Custom receipt printer: prints logos & barcodes

UNDERSTAND THE INVENCO DIFFERENCE

Invenco is a global provider of revolutionary self-service payment technology and secure customer engagement solutions. With a strong presence in the petroleum retail vertical, Invenco's product lines include FlexPay 6 A1-09 and FlexPay 6 M1-15 Outdoor Payment Terminals, iNFX retail micro-services (including electronic payment server), cloud services and Invenco Link, a high-speed Ethernet enabling device. In 2018 Invenco introduced i2, the world's first outdoor EMV as a service, to help US fuel retailers avoid the EMV liability shift without the burden of a large upfront investment. Invenco has deployed over 100,000 EMV payment terminals engaging millions of customers every day. Invenco is headquartered in Auckland, New Zealand and operates offices in the U.S., Canada, Malaysia and the UK.
