

Invenco by GVR's compact all-in-one payment terminal for both indoor and outdoor use. With value driven features from a single payment certification to its smaller footprint, this payment terminal has it all.

FlexPay 6 A2-05

Industry-Leading Payment Features in A Compact Design

Achieve a single payment experience across EV charging, outdoor fueling, indoor payment devices, vending and kiosks.

Reduce Total Cost of Ownership with Simplified Certifications

FlexPay 6 A2-05 family of products will leverage Invenco L2 certifications so that you can spend more time building applications that drive your business, instead of certifications with EMV payment processors.

KEY FEATURES

- PCI 6.x with SRED
- 5" HD Color, Full Touch payment display
- PIN-on-glass design
- Contactless v3.x card reader
- 2D bar code reader
- Multiple P2PE
- EVA mounting standard compliant

KEY BENEFITS

- Save time and money with a single payment certification
- New smaller footprint for use with EV charging, outdoor fueling, indoor payment devices, vending and kiosks
- Future proof application support with a quadcore processor
- Reduce trips to the site with a cloud-managed system that supports remote key injection, kernel updates and P2PE methods
- Extend the life of your reader via separate chip and magnetic stripe card readers
- Drive promotional content directly on the device or pair with a larger display to enhance the customer experience
