

The Invenco® by GVR FlexPay 6 M2-15 Modular Payment Terminal pairs the next generation all-in-one 5" payment terminal with the 15.6" full touch HTML5 screen, built for the outdoors. The payment terminal features a PIN on glass for greater reliability.

## KEY FEATURES

- 15.6" HTML5 & full touch display for a richer experience
- PCI 6.x
- PIN-on-glass design
- EMV & Contactless v3.x as standard
- 2D bar code reader
- Multiple P2PE

# FlexPay 6 M2-15

## Industry-Leading Payment Features in A Compact Design

Achieve a single payment experience across EV charging, outdoor fueling, indoor payment devices, vending and kiosks.

## Reduce Total Cost of Ownership with Simplified Certifications

FlexPay 6 M2-15 family of products will leverage Invenco L2 certifications so that you can spend more time building applications that drive your business, instead of certifications with EMV payment processors.

## KEY BENEFITS

- Save time and money with a single payment certification
- New smaller footprint for use with EV charging, outdoor fueling, indoor payment devices, vending and kiosks
- Future proof application support with a quadcore processor
- Reduce trips to the site with a cloud-managed system that supports remote key injection, kernel updates and P2PE methods
- Extend the life of your reader via separate chip and magnetic stripe card readers
- Drive promotional content directly on the device or pair with a larger display to enhance the customer experience
