

Your operating system for convenience retail.

Pay-at-Pump Terminals

Retrofitted, EMV, NFC contactless, P2PE and cloud-connected HD touchscreen terminals in a range of screen sizes.

iNFX Retail Microservices

Hardware agnostic, decoupled software microservices powering Invenco by GVR products like the Transact EPS

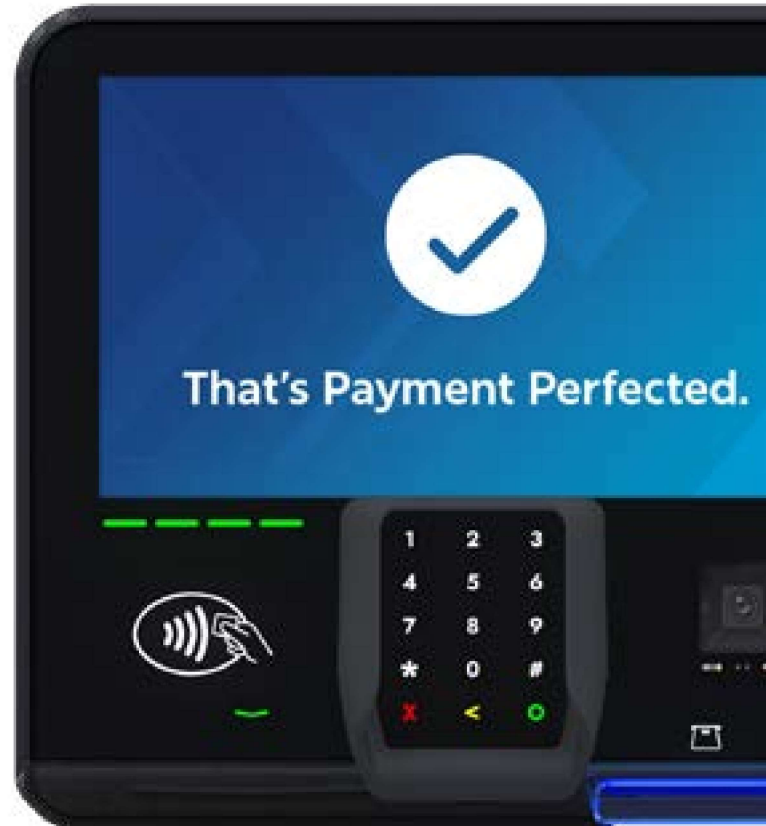

Cloud Services Platform

Specialized IoT platform for managing PCI-certified devices, site assets & applications including media & loyalty.

Edge Pro

A secure, connected IoT device designed to host site-level software products like our Transact EPS or various other iNFX microservice applications

Understanding the Invenco by GVR Difference

Invenco by GVR brings together Gilbarco Veeder-Root's (GVR) time-tested Retail Solutions business with best-in-class technology from Invenco. As a global leader in the payments and c-store industries, Invenco by GVR aims to be the operating system for convenience retail, by providing retailers with agile technology solutions that will allow them to increase productivity and drive consumer engagement.

Your operating system for convenience retail.

The Invenco by GVR Difference

- ✓ Positioned to deliver now and in the future on increasing payment security needs and standards, including P2PE
- ✓ Cloud-driven and scalable with flexible infrastructure and remote asset management capabilities
- ✓ Driving return on investment through in-store sales, loyalty, media, promotions and gamification opportunities
- ✓ Digitally agile and open platform for faster integrations across technology and fuel type offerings
- ✓ Leading the way in delivering a truly open system that welcomes third-party integrations for the opportunity to build an ecosystem of providers

Over 125,000 pay-at-pump terminals installed

First to deliver Outdoor EMV pay-at-pump terminals

Most competitive pricing programs available

Vocal advocate for open-platform systems
