

New Express Lane™ Self-Checkout Cash Handling and Reporting Features

with Passport® Software Version 23.01 and MP13

You asked, and we delivered! New features enhance retailers' visibility of cash use at their self-checkout lanes and increase cash handling security.

Terminal	Denomination	Quantity
1	\$0.01	12
1	\$0.05	15
1	\$0.10	4
1	\$0.25	12
1	\$1.00	0
1	\$1.00	0
1	\$1.00	0
1	\$1.00	0

Terminal	Operator ID	Date/Time	Type
1	91	10/18/2023 10:27:34 AM	Float to Cashbox

Cash Transactions	
Terminal 1 Cash Sales	\$37.00
Total Cash Sales	\$37.00

Better Reporting

Store close reports show cash beginning balance, any cash added by a cashier, cash added through transactions, cash removed by a cashier, and the ending balance. Outstanding cash transactions for prepaid fuel is also reported. Data is available in XML format for back-office systems.

Fewer Errors

To reduce human error, we've added prompts for adding and removing cash from Paypod. Now staff will be asked if they would like to zero the cashbox, add cash to the loader, or perform maintenance.

Empty Coins or Cash

Now you can choose coin or cash "empty to payout" and "float to payout" options. This allows retailer to remove only coins from Paypod while leaving bills in, without needing a service call.

Minimum Requirements: Passport software version 23.01 and MP13.
