# Selecting Card Reader Gasket Replacement

When replacing the card reader in a dispenser, ensure that you remove the old card reader gasket and replace it with the appropriate gasket provided in the kit to improve the weather sealing of the card reader. For more information on appropriate gaskets, refer to *MDE-5082 Dispenser Gasket and Weather Shield Kits (M12962K0XX) Installation Instructions for Encore S/E-CIM/700*.

Select the appropriate gasket from the kit (based on the dispenser) by referring to the following table and [Figure 1](#) on [page 2](#). The table lists the gaskets provided with each card reader kit.

| Part Number | Description         | Where Used               |
|-------------|---------------------|--------------------------|
| M13127B006  | Gasket, Card Reader | Encore 300/500/S/S E-CIM |
| M13127B006  | Gasket, Card Reader | The Advantage® Series    |
| M13127B004  | Gasket, Card Reader | Eclipse                  |

Notes: 1) If you are ordering the kits for an Eclipse unit, you also need to order the M13127B004 Gasket, which is not included in the kit.  
 2) The Secure Card Reader (SCR) 2 with Contactless Interface Board (CIB) MagTek® Assembly (M12704K002) is currently the only kit that has the M13127B004 Gasket.
