

Purpose

This document provides instructions to install the Cancel Transaction Decal on Island Card Readers (ICRs) that are under the direct control of the CFN III Site Controller.

Scope

This decal provides user information about the transaction time-out feature and the Weights and Measures mandated 3-minute limit. It also provides information on how the user can cancel the current card transaction.

System Requirements

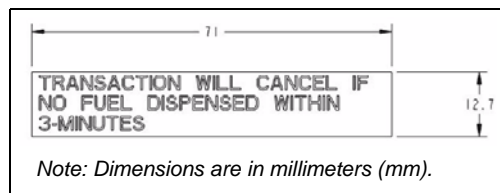

Installation of this decal is a Weights and Measures requirement. The decal must be installed on any remote Card Reader under the direct control of the CFN III Site Controller. Dispenser-mounted Card Readers do not require this decal.

Installing the Cancel Transaction Decal

Figure 1: Cancel Transaction Decal

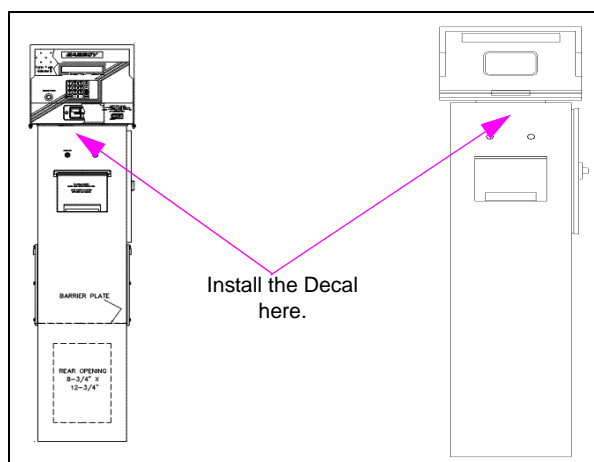

To install the Cancel Transaction Decal, proceed as follows:

- 1 Peel the backing from the decal and install on the pedestal in the area shown in [Figure 2](#). Ensure that the decal is clearly visible to the user.

Notes: 1) You must install the decal on the pedestal of all remote Card Readers at the site, which are under the direct control of a CFN III Site Controller.

- 2) *Ensure that the surface where the decal is to be installed is clean and grease-free. Clean the surface with an appropriate cleaner, if needed.*

Figure 2: Installing the Decal

- 2 Repeat step 1 for all ICRs at the site.
