

Continuing Education Bulletin

Software Upgrades for TLS-450PLUS and TLS4

This continuing education bulletin provides information to Veeder-Root certified technicians and operators regarding Software Upgrades for the TLS-450PLUS and TLS4 consoles

Continuing Education Bulletin: CEB 2017-3A

Scope: This document will describe where to find the latest software for the TLS-450PLUS and TLS4 consoles. It will also describe how to extract the files onto a thumbdrive.

1. To retrieve the latest software go to www.veeder.com

- a. Select the Support Tab.

- b. Select Service and Distributor Support.

- c. Select ATG Software Download.

2. Click on the Download Now Icon.

- a. Enter the requested information.

- i. Name
 - ii. Email
 - iii. Company
 - iv. Job Title
 - v. Phone number

- b. Click on Get Downloads.

Note: only the current software version is available.

- c. On the next page click on Download under the Software (.zip) column.

- d. Perform a Save or Save As, suggest creating a folder depicting software version.

3. Once download is completed open the folder where you stored the zip file.

	342004-007G-v231.16-thumb.zip	15-Mar-17 1:41 PM	ZIP File	312,402 KB
---	-------------------------------	-------------------	----------	------------

- a. Click on the file and extract the contents to the folder

- b. Once extraction is complete delete or move the zip file out of the folder.

4. To create an Upgrade thumb drive

- a. Format a 4G thumb drive using FAT32 format.

- b. Copy the extracted files to the Thumb drive including the two folders.

5. The Thumb drive should have two files and two folders on it, there should not be any other files on the drive (the zip file should not be copied onto the thumbdrive.)

Name	Date modified	Type	Size
 distribution	15-Mar-17 1:44 PM	File folder
