TLS4
Quick Start Guide

VEEDER-ROOT

Example TLS4 Home Screen-2 Tanks Monitored, 1 Warning

Date & Time

Print Button

See Example Status Bar Types Below
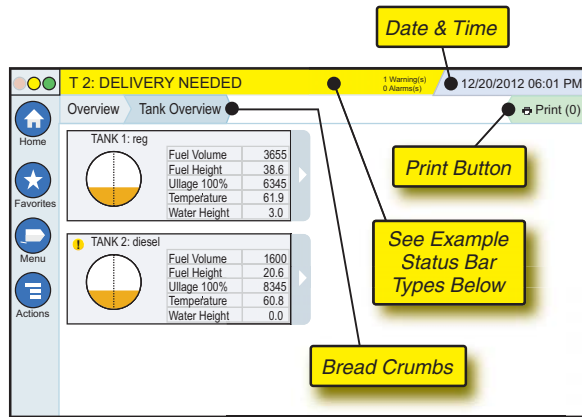

Bread Crumbs

12/20/2012 06:01 PM **System Date and Time**

Overview | Tank Overview **Bread Crumbs** - Menu path to current screen - touch a previous tab to return to the Menu Selection dialog.

Print (0) **Print button** - Touch to print a report of the current screen if you have a printer configured on your system. If you have more than one printer configured you'll be prompted to choose a printer. NOTE: A number in parentheses indicates the number of print jobs sent to the printer and waiting to be printed.

TLS4 Front Panel Status Lights

Normal | Warning | Alarm

Example Status Bar Notifications

| SYSTEM STATUS | 0 Warning(s) 0 Alarms(s) |

Power On to console and no warnings or alarms from system.

| T 2: DELIVERY NEEDED | 1 Warning(s) 0 Alarms(s) |

Something needs to be reviewed and/or assessed. In this state, touching the status/warning bar brings you to the Reports > Alarms > Active screen so you can see the cause of the warning. While in that screen, touching the status/warning bar again acknowledges the warning and shuts off the beeper.

| L 10: FUEL ALARM | 0 Warning(s) 1 Alarms(s) |

Something needs to be acted upon immediately. In this state, touching the status/warning bar brings you to the Reports > Alarms > Active screen so you can see the cause of the alarm. While in that screen, touching the status/warning bar again acknowledges the alarm and shuts off the beeper.

| SAVING | 0 Warning(s) 0 Alarms(s) |

System tasks message bar.

System Icons

Home Screen Icon - Touch to navigate to the home screen. Default is the Tank Overview screen (shown at left).

Favorites Screen Icon - Touch to setup/access your favorite screens and designate which screen will be the home (default) screen:

Touch to add the current screen to your Favorites list. You can have more than one Favorites screen. If you want to delete a screen from your Favorites list, touch ⊗ next to that screen.

Touch to set the current screen as the home screen.

Menu Icon - Touch to access System Setup Menu, Reports, Diagnostics and other screens (Administrator assigned access).

Actions Icon - Touch to access Help. Touch the Help icon ❓ to open On-Board Help. Also, if the Shifts feature is set up, touching the Actions icon will display the Close Shift icon 🔄 which can be touched to close a shift.

Unrelated to the choices above, when entering data in any screen, a Red Circle may appear on the Actions icon to indicate that additional tasks can be performed on that screen.

Screen Dependent Icons - The number in the circle under the Actions icon indicates the device you are viewing or setting up. Touching the circled number displays all of the similar devices in a row along the bottom of the screen (other tanks, ports, probes, etc.) that you have set up. Touching the circled number again hides the device icon row. A highlighted icon indicates the device you are viewing or setting up. Some of the device icons you may see are shown below:

① Device	Tank	Ethernet Port	Probe	Test	Relay
	Product	Sensor	Printer	Siphon Set	Serial Port

Field Name* An asterisk (*) next to a field indicates you changed an entry for that field before you have accepted or saved the change in a dialog window.

✓ Touch to accept/save the entries you have made in a dialog window.

✗ Touch to exit or cancel without saving any changed entries you may have made in a dialog window.

Security Login

Login [If the console Security Feature is Enabled] - Touch the Login button to open the login screen so you can login as a user.

VEEDER-ROOT

Username:

Password:

Sign In | Cancel

Once the screen above displays, log in to the system with your Username and Password. NOTE: If you do not log in, you are only permitted to view system status screens and to print out end-user reports

Logout Touch the Logout button to log out of the console. NOTE: If the console is inactive for 15 minutes, the console will automatically log you out. You will need to log back in to access your user account.

Using On-Board Help

Note: On-board help applies to multiple console types - not all help features will apply to all consoles.
Enter On-Board Help:

- Upon entering Help, the topic associated with the currently displayed screen will be visible. Repeatedly touch the side scroll bar up/down arrows to scroll through a topic. You can also drag and pan through a topic. Touch the 'X' in the right corner of the Help screen title bar to return to the TLS4 screen you were viewing.
- To show or hide the help Table of Contents (TOC) pane on left side of screen - Quickly tap the text (Show TOC or Hide TOC) twice with your finger.
- To expand (📖) or close (📕) a book - Touch the icon of the book once with your finger.
- To go to a topic (📄) within a book - Quickly tap the book topic twice with your finger.
- Touch the side TOC scroll bar, and either move your finger up (to scroll down) or move your finger down (to scroll up).
- Repeatedly touch the side TOC scroll bar upper arrow to scroll up, or repeatedly touch the side scroll bar down arrow to scroll down.

Manual No: **577014-034**, Revision: **A**
TLS4 *Quick Start Guide*

TLS4 Comm Ports - Menu>Setup>Communication

The diagram below shows Comm Port options. Your console's Comm Port configuration will depend on features ordered.

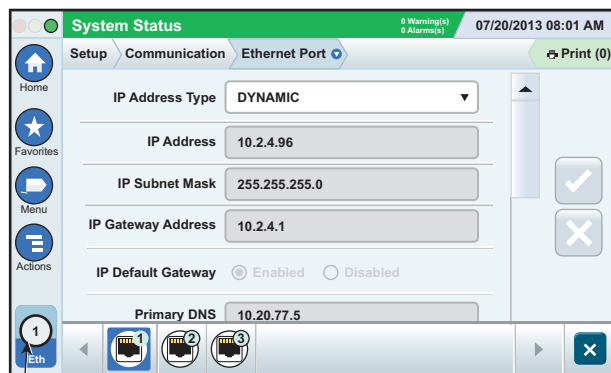

- (Optional CDIM)
- Ethernet port (2) upper
- Ethernet port (3) lower (Optional)
- USB port (1) upper
- USB port (2) lower
- Future expansion
- Ethernet port (1)
- RS-232 or RS-485 DB9 ports

CDIM 1   CDIM 2   EXPANSION   ETH 2 ETH 3   USB 1 USB 2 ETH 1   SERIAL 1   SERIAL 2

Alarm Limit Settings - Menu>Setup>Tank>Limits

The diagram below shows the relative position of tank alarm (Limit) settings.

- Full Volume (Ref.)
- Max (Label) Volume
- High Product
- Delivery Overfill
- Pump Inlet (Ref.)
- Delivery Limit
- Low Product
- High Water Alarm
- Water Warning

Configure An Ethernet Port -
### Menu>Setup>Communication>Ethernet Port

Touch **Actions>Help** from this screen for setup assistance. Ethernet ports 2 and 3 are an optional feature.
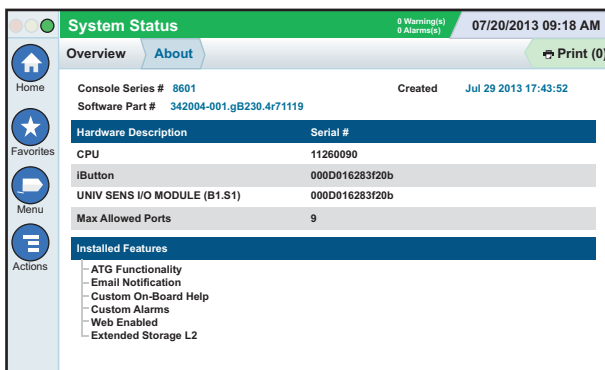

Backup Data - Menu>Software Upgrade>DB Backup

Insert your thumbdrive (minimum 4 GB) in a USB port and touch the down arrow in the Backup Destination field to select the thumbdrive, then follow the on-screen instructions to backup TLS4 data.
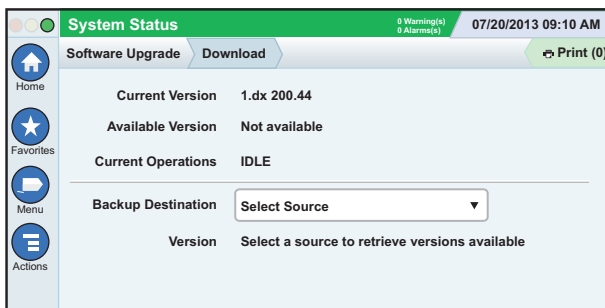

You should perform a DB Backup daily.

TLS4 Software Version - Menu>Overview>About

Touch **Actions>Help** from this screen for content information.

Software Download - Menu>Software Upgrade>Download

Insert your valid V-R Code thumb drive in a USB port and touch the down arrow in the Backup Destination field to select the Thumbdrive, then follow the onscreen instructions to begin the download.

Paths To Frequently Used Screens
