Passport Status

Partners with a ★ have products that have been “Gilbarco Certified”. Certification status means Gilbarco has successfully tested these solutions in a lab environment and/or in the field.

Partners with a ✓ specify they are “Gilbarco Approved” partners. Approved partners have access to the latest specifications and documentation and are assumed to have successfully developed a working solution, interfacing to Passport.

Back Office Partners

All partners listed successfully utilize the Passport NAXML Gateway interface.

Managed Network Service Providers

The Gilbarco Secure Zone Router with Acumera requires Passport Version 11.02JMP1 and above with specific brands and patches. This is the networking solution to replace the Cisco RV042 (Q13708-08B) for high-speed connectivity for all of Passport and Gilbarco Veeder-Root IP-enabled devices and can be upgraded to a Perimeter routing solution directly through Acumera.

Acumera and the other partners below are Gilbarco lab certified for high-speed connectivity and remote access and can supply All-In-One site perimeter firewall and zone routing solutions based on individual brand approvals.
