Product Guide

Dispenser Entry Protection

Just like a car's security alarm, our Door Entry Detection System alerts you instantly anytime an unauthorized entry is attempted. Combined with Insite360® for Encore, retailers can remotely disable a unit – stopping thieves immediately stopping the crime from proceeding. Furthermore, the sensors can be configured to alert the cashier of the tamper attempt. The Reinforced Lower Panel provides a secure shield to ward off criminals. It uses heavy-duty steel and scissor-type locking mechanism to keep thieves out. Even professional bolt cutters are no match this security strategy.

Custom Locks

Gilbarco has created the factory-installed Custom Lock option as the solution to prevent unauthorized access, damage to your dispensers and possibly your brand. Gilbarco's Custom Locks have a two-fold benefit to prevent tamper events. Gilbarco's custom locks and keys are configured specifications you control. Additionally, thieves prefer easy targets. Gilbarco's Custom Locks are anti-drill and made of hardened steel – resistant to corrosion.

Screen Protector Kit

Fuel dispenser screens are the key to bringing traffic inside your store. Protect your investment against damage and vandalism with Gilbarco screen protectors. The film is made with the same materials used to protect NASCAR windshields. Simply lay the protective layers over the dispenser screens and peel away for a fresh, clean surface.

HD Meter

The HD Meter allows you to keep more of your fuel and your money with its ability to reduce drift by 50% over standard meters. Stroke control from positive stops on the piston and end cover eliminates fuel over-delivery and reduces calibrations to reduce drift and save thousands in profit.

Ultra-Hi Encrypted Pulser

The HD Meter allows you to keep more of your fuel and your money with its ability to reduce drift by 50% over standard meters. Stroke control from positive stops on the piston and end cover eliminates fuel over-delivery and reduces calibrations to reduce drift and save thousands in profit.
