

Single-Use Breakaway

The Catlow C86NT (3/4") and C100N (1") Single-Use Breakaways are industry leaders with minimal flow restriction. These single-use breakaways are designed to separate in the event of a drive-off to prevent damage to the dispenser and the customer's vehicle.

Upon separation, the internal dual poppets close to trap fuel inside of the hoses at both ends to eliminate spills and damage to the environment.

Features and Benefits

- > UL/ULC listed
- > Meets NFPA 30A Codes
- > C86NT mates with all 3/4" and 5/8" hoses
- > C100N mates with all 1" hoses
- > Minimal flow restriction
- > Maximum separation force is designed at 350 lbs
- > Seals both ends of the breakaway
- > 12-month warranty
