

**NITTANY OIL ROLLS OUT GILBARCO'S EXPRESS ORDERING FOOD SERVICE ORDERING KIOSKS ACROSS ENTIRE STORE CHAIN**

**Food Service Solution launched in 26 Locations**

**GREENSBORO, N.C. – October 13, 2016** – Gilbarco Veeder-Root announced today that Nittany Oil is now using Gilbarco's Express Ordering Food Service solution in all 26 locations. Nittany MinitMart has evolved their food service program across Central and Northern Pennsylvania over the past 50 years, expanding their menu to include breakfast and a wide variety of lunch and dinner menu options. With the growth of their food service program, the need for self-service ordering technology has become a necessity, and Nittany Oil turned to Gilbarco's Express Ordering Food Service solution to meet their evolving needs. Nittany Oil has also invested in Gilbarco's Passport® POS system to further optimize their food service solutions.

"Express Ordering has given our food service program a competitive edge," states Joe Faretta, Nittany MinitMart Division Manager. "It provides a customer a friendly, streamlined ordering process and enables real-time integration with our registers."

Since Gilbarco's Express Ordering is a scalable and adaptable solution that can be customized, it was the perfect fit for Nittany Oil. They also integrated Gilbarco's Passport Point of Sale System which provided a complete c-store solution. They will be able to take advantage of future features such as mobile phone ordering and the ability to order your items at the pump.

"With the huge growth in food service offerings at our customers' stores, Gilbarco and our partners will continue to invest in integrated solutions like Express Ordering to allow them to succeed," said Scott Oakes, Product Marketing Manager Express Ordering, Gilbarco Veeder-Root.

Nittany Oil Company businesses have been serving Central and Northern Pennsylvania for over 50 years. Their experience and dependability in delivering quality heating oil, diesel fuel, top-notch service and installation make all the difference.
