

BP-BGB

Effective October 21, 2016

> This document details additional revisions to the BP-BGB image.

Revisions

- > The lower door decal and custom canopy have been revised to remove the pearl color elements located on canopy and lower door.
- > The "Ultimate" grade has been revised to show new image. No changes to the "Regular" and "Silver" grades.

For more guidelines, review the below:

- > A BP approval code is required for any fuel that is not a unleaded gasoline. This includes branded and unbranded images.

The customer service representative informs the distributor of the following information:

In order to process your order for BP Diesel, Unbranded Diesel, Kerosene or any Flexfuel, you must first obtain the jobber name and SVB number. Please mail this information to BP contact, Debbie Petrauskas at debbie.petrauskas@bp.com. The BP contact will provide you with a BP approval code if the site is approved. Please let the BP contact know what product is needed for order: BP Diesel, Unbranded Diesel, Flex Fuel, or Kerosene. Once you have obtained the BP approval code, please email the code back to the customer service rep so the order processing can be completed. If this procedure is not followed accurately, it will delay order processing.

- > Gilbarco does not supply the canopy for the branded or unbranded BP-BGB image.

BP-BGB (Branded)

The BP-BGB image requires a custom painted white bezel door, side sheathing and upper housing. The image also includes decals which are applied to the left and right side sheathing.

BP-BGB (Unbranded)

The BP-BGB Unbranded image requires a custom painted white bezel door, side sheathing and upper housing. This image does not require side sheathing decals.

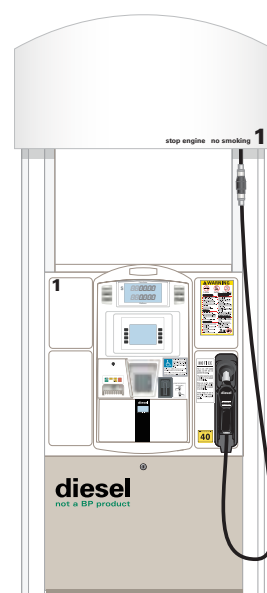

BP-BGB NL1 (A and B Side)

BP-BGB NAO (A and B Side)

BP-BGB Unbranded NAO (A and B Side)
