

Passport® PX60 Trade-Up Program

Gilbarco Passport Point of Sale customers with PX51 and/or PX52 hardware can trade up existing hardware to the PX60 All-in-One platform. You can now purchase a Passport PX60 All-in-One terminal at a discounted price honoring your site's existing PSO and software license. The PX60 Trade-Up program exchanges your current PX51/PX52 server/client and screen with PX60 All-in-One.

The Passport PX60 All-in-One packs full-size power into a sleek, simple countertop unit. It provides a bigger, more durable screen, record-breaking response times, and lightning-fast data imports. There's also no under counter PC to take up space and add complexity. With fewer cables, Passport PX60 is an attractive package that offers a lot more power in a lot less space. Additionally, you will enjoy a better-looking counter area, more space to sell, a simpler install, and faster transactions.

All-in-One Trade-Up Program Pricing

Configuration	Suggested Retail Price
Passport COMBO	\$5,332
Passport Server	\$5,332
Passport Client	\$4,197

Must order by November 30th, 2020, and be able to receive shipment by December 31st, 2020.

*Additional items may be needed depending on site configuration, end-of-life status of peripherals, or current Passport software version installed. Contact your Gilbarco Distributor for a complete estimate.

Frequently Asked Questions

Can I install the Trade-up system at the same time I upgrade my site to EMV? Yes. Upgrading to the PX60 at the same time as the EMV upgrade results in an overall reduced installation time for the EMV upgrade.

My site is not under a PSO agreement. What do I need to do? The PX60 Trade-Up program requires a site to have current PSO Subscription. Please contact Gilbarco Contract Services at (866) 606-8989 to renew the site's PSO agreement.

My site has PSO coverage today. Will it continue to have PSO with the new system? Yes. If the site presently has PSO, Gilbarco will transfer your existing PSO agreement to the PX60 hardware.

What happens to the other peripherals when PX60 is installed?

*Existing peripherals will be reused when the Passport PX60 is installed.
