

# Be prepared. Be represented.

## UST Compliance Management Services (CMS)

Our experience shows we can reduce compliance costs up to 50%, allowing tank owners to redirect staff, time, and capital to more profitable uses. We can also increase the effectiveness of the compliance effort, reducing the potential liabilities arising from leaking tanks and piping, permit renewal, and regulatory compliance.

Gilbarco Veeder-Root currently manages the UST regulatory compliance for 10,000 locations. Our expert staff handles all regulatory filings, coordinates immediate response to any environmental incidents, maintains compliance records online with secure customer access, continuously monitors regulation changes, and resolves Notices of Violation.

### State Specific UST Compliance Services:

- > Site Permitting and Registration
- > Notice of Violation Resolution
- > Designated Operator Visual Inspections (CA Only)
