

# Red Jacket Stainless Steel Risers for Corrosion Defense

Improve serviceability and avoid water intrusion into your tank from corroding riser pipe threads by installing stainless-steel risers that are impervious to in-sump corrosion.

Red Jacket 4" stainless steel riser pipes are available in 7.5", 10.5", 15.5", 19.5", and 27.5" lengths to address water intrusion at tank top interfaces due to accelerated corrosion.

An additional five lengths are available upon request (8.5", 12.5", 18.5", 24.5", 36.5"), please consult customer service for lead times and return policy.

## Standard Size Stainless Steel Risers, Type 304

Part Number	Description
410829-075	Stainless Steel Pipe Riser, 4" diameter, 7.5"
410829-105	Stainless Steel Pipe Riser, 4" diameter, 10.5"
410829-155	Stainless Steel Pipe Riser, 4" diameter, 15.5"
410829-195	Stainless Steel Pipe Riser, 4" diameter, 19.5"
410829-275	Stainless Steel Pipe Riser, 4" diameter, 27.5"

## Non-Standard Size Stainless Steel Risers, Type 304

Part Number	Description
410829-085	Stainless Steel Pipe Riser, 4" diameter, 8.5"
410829-125	Stainless Steel Pipe Riser, 4" diameter, 12.5"
410829-185	Stainless Steel Pipe Riser, 4" diameter, 18.5"
410829-245	Stainless Steel Pipe Riser, 4" diameter, 24.5"
410829-365	Stainless Steel Pipe Riser, 4" diameter, 36.5"
