

# Insite360 Fuel – TCP/IP Card Promotional Offer (TCP360)

**SPECIAL LIMITED TIME OFFER:** Purchase a discounted TCP/IP card from your participating distributor when you sign up for 18 - 36 months of Insite360 Fuel service (\$20 / site / month)

**Insite360™ Fuel** is a cloud-based fuel management platform that provides a secure, user-friendly portal for operators to monitor and control their entire network of fuel sites

How to Take Advantage of this Offer:

- ✓ Learn more about Insite360 Fuel and submit your request for service by visiting [www.insite360fuel.veeder.com/](http://www.insite360fuel.veeder.com/)
- ✓ A Veeder-Root representative will contact you to setup Insite360 Fuel service and provide the discount
- ✓ Order your discounted TCP/IP card through your participating distributor for installation and activation

## Ethernet TCP/IP Communications Card

- Automatically transmit TLS information at a specific time or in response to a specific event or alarm condition
- Take advantage of Veeder-Root's cloud-based fuel management platform, Insite360 Fuel, to securely access and control your TLS from anywhere, anytime
- Integrate secure communications directly into your tank gauge; connect directly to LANs and WANs
- TLS-350 Series (P/N 330020-425) and TLS-300 Series (P/N 330020-424) consoles
