# **Above Ground Storage Tank Solutions**

The Only Customized Choice for Fleet & Retail Applications

**ASTRA 9823K** 

Compact 9123K

Gasboy® Atlas™ Above-Ground Storage Tank (AST) pumps are the industry's only customized solution that can be sealed by Weights & Measures for custody transfer/retail sale applications. They feature a heavy-duty 1 HP motor with a durable pump and meter for long life.

### Part of a Complete System

When used with Gasboy TopKAT®, Series 1000 Fleet Key, Islander® or CFN® fuel management controllers, you have a complete, single-source solution for your municipal, fleet fueling or retail sales requirements.

Add a Gasboy fuel management system now or later as your needs change. Detailed reports track fuel, drivers and vehicles. They are available on-site or can be accessed from a remote location. Systems also provide access control for better security and fuel management.

Or, use Gasboy AST pumps as standalone products for private use and farm applications today.

### Two Models

ASTRA 9823K is a split remote pump with electronic register for easy access and volume read-out viewing – just the right height!

Compact 9123K is a self-contained, single pump with combined mechanical register.

# Astra 9823K and Compact 9123K Specifications

Regulatory Approvals: UL and cUL listed, NCWM, Measurement Canada  Working Pressure: 50 psi maximum  Motor/Voltage: 1 HP continuous duty motor 115V/60HZ  Motor/Voltage: 1 HP continuous duty motor 230V/50 Hz  Pump: 10 vane rotary pump with integrated air separator  Meter: CFT flow through positive displacement 4-piston meter. Accurate to 0.25%  Valve: 1" solenoid valve for slow-down preset operation (PP)  Filter: integrated internal spin-on filter (F)  Discharge: 1" NPT black iron  Inlet: 1-½" NPT rear inlet  Housing/Cabinet: Painted G90 galvanized steel  Dimensions: 27.7" W x 25.4" H x 22.5" D  Lockable removable panels  Finish: White hydraulic cabinet, black remote register with blue tedlar faceplate  Finish: Black top, sides, and back panel. White front panel  Mounting: 4 stainless steel "L" feet slotted for anchor botts.  Pulser: Dual phase 1000:1 with error detection  Pulser: Dual phase 1000:1 with error detection  Pulser: Dual phase 1000:1 with error detection  Fiow Rate: 20 gpm rated*  Remote Electronic Register: Volume only (gallons or 9999.00 liters. Liters denoted by :R" model suffix option. Electronic Totalizeris displayed on LCD by magnetic switch.  Reads up to 999999. Battery backed.  Mechanical Register: Four-wheel reset gallons/liters only. Reset interlock reads up to 999999.99.9  Mechanical Totalizer for pumping unit cabinet: Mechanical non-resettable totalizer reads up to 9999999.99.9  Mechanical Totalizer for pumping unit cabinet: Mechanical non-resettable totalizer reads up to 9999999.99.9  Mechanical Totalizer for pumping unit cabinet: Mechanical non-resettable totalizer reads up to 9999999.99.9  Mechanical Totalizer for pumping unit cabinet: Mechanical non-resettable totalizer reads up to 9999999.99.9  Mechanical Totalizer for pumping unit cabinet: Mechanical non-resettable totalizer reads up to 9999999.9  Mechanical Totalizer for pumping unit cabinet: Mechanical non-resettable totalizer reads up to 9999999.9  Mechanical Totalizer for pumping unit to remote register. #### Warning

Gasboy products must be installed by a qualified installer and used in conformance with all building, fire and environmental codes, and other safety requirements applicable to their installation and use, including, but not limited to NFPA 30, NFPA 30A and NFPA 70. This product is only part of a fuel dispensing system and additional equipment and accessories, such as, but not limited to, breakaway connectors, shear valves, pressure regulators and other safety devices may be necessary to meet the applicable codes. Qualified installers shall be familiar with fuel systems installations under the above stated building, fire and environmental codes and other safety requirements for the particular type of installation. Gasboy dispensers shall not be used for direct fueling of aircraft without filters, separators and other equipment necessary to ensure product purity. All sales subject to Gasboy standard warranty.

<sup>\*</sup> For maximum flow rate, use 1" hose and nozzle. For lower flow rate, use 34" hose and nozzle.
