Inform.NET

Fuel Inventory Management System

Inform.NET is a fuel inventory management software solution that any size network of automatic tank gauges can utilize for real-time fuel and compliance management. It allows you to access critical tank gauge information from almost anywhere — laptops, smartphones, computers — wherever you can find an Internet connection.

Psince it's a corporative platform, Inform.NET also allows unlimited polling and multiuser access, wherever they are. And you can tailor access to your network depending on the individual's role in the organization. It is the best and most complete tool to gather and report information on critical data including tanks, lines, deliveries, inventories, inventory reconciliations (BIR) and sensors.

Inform.NET gathers these data in order to obtain access at any moment and uses an advanced report mechanism to create and automate nearly unlimited customized reports. The fuel station data are storage on a secure database and can be exported in a text format, Excel, and CSV for use on demand. It's possible to send out reports at every interval to the key-users, assuring that the business becomes more efficient and lucrative.vo.

ABIEPS

Tecnhnology with a human touch.

Main Features

> **Remote Connection:** instant connection, via Internet, to the Measuring System data.

> **No device limit:** Measuring Systems management from any device connected to the Internet, such as cell phones, computers, laptops or tablets.

> **Unlimited Consults:** continuum access to the inventory and Measuring System alarm data at anytime, anywhere.

> **Total Control:** executes all the configurations and measuring commands remotely.

> **Multiusers:** unlimited users access.

> **Security:** the information visibility is defined by the user profile and also by the establishment he has access to.

> **Alteration Detaction:** Alarms and reports notifications directly from the Measuring System in real time via email.

> **Fast:** the multiple core architecture rescues, in a matter of seconds and simultaneously, all the inventory, alarms and sensors data, with no console quantity limitation – 500 locals in less than 30 seconds.

> **Interactive Chat:** the users can chat from their Veeder-Root Systems, through the serial protocol command.

> **Intuitive Interface:** Friendly interface, easy to use.

> **Flexible Restauration:** it's possible to redefine the Inform.NET original configuration in only one click.

Main Benefits

> Guarantees that the Measuring System critical data are never lost, once it allows a remote restore..

> Allows remote programming and configuring the Measuring System from any browser on any device.

> Creates parameters models in a meter, a groups of meters or all Measuring Systems on the fuel station network, simultaneously.

> Everything, starting with the configuration and the data collecting until the fuel station diagnosis, is a click away

> Easy to use, requires little training.

> Instant inventory consult, which assures greater efficiency on the stock and logistics management.

> Provides precise and centralized data management of the Measuring System.

> Visibility of a single current inventory source and historical data, which help optimizing the fuel management.

> Immediate notification of alarms and reports by email, which counts for good risk management practices.

Sistemas Veeder-Root Compatíveis

Inform.NET is able to communicate and run any Automatic Tank Guage System that supports Veeder-Root's Serial Protocol Interface, including TLS-450, TLS-350R, TLS-350, TLS-300, TLS-2P, TLS-2 and ProPlus.

Installation Requirements

In order for Inform.NET's perfect operation, it's necessary that the server posessses a mininum configuration. Check the requirements upon software acquisition.

The success of your business must be supported by solutions and technology at your fingertips. You need a partner. Someone who listens to you. Someone who can meet your needs, your customers' needs, and your financial needs. We have all the products and services you are looking for. Count on us to help you and provide any further information.
