

Console Description	<p>The TLS4B Automatic Tank Gauge is a non-expandable console ideally suited for customers seeking to streamline their inventory management using an affordable, web-enabled technology to eliminate manual dipping procedures. The TLS4B has 6 universal sensor or probe inputs (when using only two-wire devices).</p>

Part # & Description															
External Printer for TLS4 Series Consoles (Epson Model: TM-T88V)	0330020-832														
Wall Mounting Bracket for External Printer for TLS4 Series Consoles	0330020-839														
Specifications															
Operating Temperature	+32 to +122°F (0 to +50°C)														
Storage Temperature	-40 to +158°F (-40 to +70°C)														
Installation Location	NEMA 4 or indoors; must maintain Operating Temperature requirement stated above.														
Relative Humidity	0-90% (non-condensing)														
External Dimensions	13" x 8" x 3.5" (33.02cm x 20.32cm x 8.89cm)														
Construction	16GA (0.060"/0.1524cm) powder coated steel														
Console Power Wiring Requirements	AC Power Wiring – Wires carrying 120 or 240VAC from power panel to the console should be #14 AWG (or larger) wire for line, neutral & chassis ground (3); and 4 sq. mm, rated for at least 90C for barrier ground.														
Probe & Sensor to Console Wiring Requirements	<ol style="list-style-type: none"> Wire Type – Shielded cable required regardless of conduit material or application. Shielded cable must be rated less than 100 picofarad per ft manufactured with a suitable material such as Carol C2534 or Belden 88760, 8760, or 8770. Cable must be oil and gas resistant. Wire Length – maximum 1,000ft (304.8m) to meet intrinsic safety requirements. Improper system operation could result for runs over 1,000ft (304.8m). Wire Gauges – Color coded – shielded cable used in all installations. Wires should be #14 - #18 AWG stranded copper wire and installed as Class 2 circuits. As an alternate method when approved by the local authority having jurisdiction, #22 AWG wire such as 88761 may be suitable with the following requirements: wire run is less than 750ft (228.6m), Capacitance does not exceed 100 pF/foot, Inductance does not exceed 0.2 uH/ft. 														

Specifications (continued)		System Compatibilities Guide	
System Power Requirements	Either AC input or DC input, but not both. 1. Universal AC power supply: 100 to 249VAC, 50/60Hz, 2A max. 2. DC power supply: +24VDC, 2A max. and +5VDC, 4A max. Um <= 250Vrms or 250VDC.	Feature/Console	TLS4B
Display Specifications	7" (17.78cm) Color WVGA LCD touch screen display	CONSOLE DESIGN	
Data Storage Features	SD card	Modular/Expandable Features	N/A
Software Security Features	Centralized Device Management provides support for network-wide upgrades and backups.	LCD with Touch Screen	7" WVGA Color
Custom User Access	Front Panel Display control through user specific log-in; User defined roles to restrict access/functionality. Screen permissions can be limited to view, edit, perform.	Integral Roll Printer	N/A
System Security	1. Port availability control: SSH Port (22), HTTPS Port (443), Serial Command Port (10001) 2. Reassign Port Numbers (i.e., HTTPS on 50443) 3. System Integrator CVE Scans & Fixes 4. Periodic System Updates to protect against persistent threats	Universal Power Supply	•
Customized Alarm Features	Customizable for all alarms	INVENTORY CONTROL
