

End of Life Notification

Mag Plus In-Tank Probe Installation Kits

Overview

Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leader in technology development fueling systems, we view product End of Life (EOL) as part of the natural cycle that drives technology evolution.

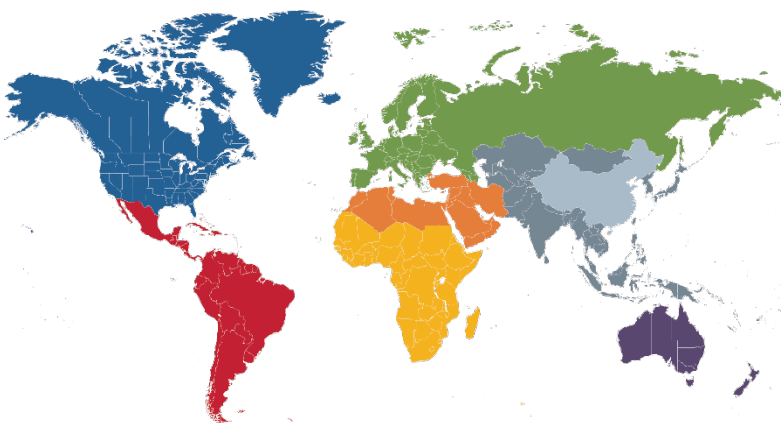

Therefore, we are obsoleting our 3" float kits and float kits with cable lengths greater than 5'. If a 10' or 20' probe cable is required, that may be purchased as a spare part. Last time buy of these kits will be **November 15, 2021**.

Due to lower demand of these installation kits, it is no longer feasible to support these going forward.

▶ Targeted Market

Global Regions

North America

LATAM

EU

SSA

MEA

ANZ

SEA

China

▶ Transition Details

For customers currently using a 3" float kit, we recommend they transition to a 2" float kit which is compatible with the Mag Plus Probe. Mag Plus Installation Kits will come standard with a 5' cable. If a longer cable is required, it must be purchased separately.

Please contact Customer Service at neworders@veeder.com.

See the *Product Transition Information* section for more information.

► Schedule for Probe Installation Kits
