End of Life Notification
## TLS-450, TLS-450 Migration Kit and Spare Parts

Overview

Legacy Veeder-Root ATG Systems
Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leader in technology development fueling systems, we view product End of Life (EOL) as part of the natural cycle that drives technology evolution. Therefore, we are obsoleting our legacy 8600 Series TLS-450 ATG system, including TLS-450 to TLS-450PLUS Migration Kit as well as TLS-450 system spare parts. The system has reached the point in its life cycle where manufacturing the product and spare parts is no longer feasible due to obsoleted components and increased costs for older technologies.
