VEEDER-ROOT

End of Sale Notification
TLS-350 Series ATG Systems

Overview

ATG Series 8470, 8482 and 8485
Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leaders in technology development fueling systems, we view product End of Sale (EOS) as part of the natural cycle that drives technology evolution. Therefore, we are obsoleting our legacy 8470 and 8482 Series TLS-350 ATG systems **effective December 31, 2021.**
These systems have reached the point in their sales cycle where manufacturing the products is no longer feasible due to obsoleted components and increased costs for older technologies.

▶ Targeted Market

North America – *EXCEPTION CALIFORNIA*
Veeder-Root will continue to produce TLS-350 systems to meet the EVR/ISD requirements during the testing and approval process for the TLS-450PLUS to meet CARB requirements for VR-202Z, VR-203Z, and VR-204Z. During this period distributors may continue to order necessary systems and spare parts to ensure customers continue to meet the state requirements.

North America, Exception California
