

MARKETING SALES RELEASE

Australia specific pulser part numbers obsoleted

1.0 Purpose

Effective immediately, pulser PNs beginning “A” have been replaced with PNs beginning “0”.

2.0 Product Details

In 2012, Veeder-Root introduced pulsers beginning with the prefix “A”; differentiating models with IECEx specific nameplates. Now that the final ATEX approval has been issued, the IECEx specific nameplates are no longer required; hence the PNs beginning “A” have been made obsolete.

3.0 POs and Contacts

Any active POs will be updated to ship the equivalent PN beginning “0”.
 Any new POs should be submitted with PNs beginning “0”.
 Please contact Customer Service with any questions or concerns.

4.0 PN replacements (Obsolete prefix “A” and replace with “0”)
