VEEDER-ROOT

Software Release Version 9P
TLS-450PLUS and TLS4 Series Consoles

Purpose

This document announces the release of version 9P software for the TLS-450PLUS and TLS4 series consoles.

Veeder-Root provides regular software updates to deliver additional functionality, inclusion of customer requests, security updates and other enhancements and bug fixes.

▶ New Features

Version 9P adds support for:
- Centralized Device Management (CDM) Auto Download – This feature will help facilitate automatic software downloads with CDM, which launches on 11/2/2020.
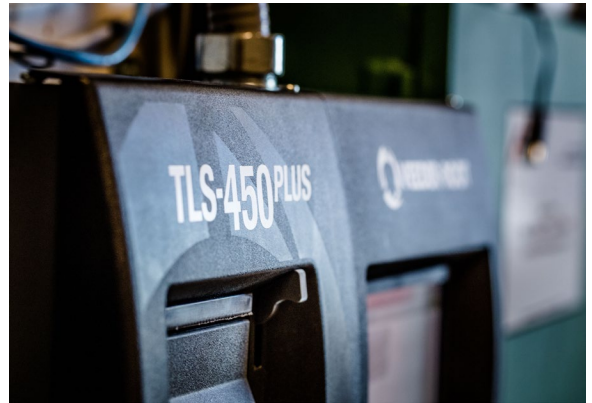

▶ Bug Fixes

Version 9P contains minor bug fixes and performance enhancements to improve speed, performance, and platform stability.

▶ Software Upgrade Kit – TLS-450PLUS, TLS4 Series Consoles

Software upgrades are always free to download on our website at **veeder.com/us/software-downloads**.

Software upgrades can also be ordered on a USB Flash drive, at no charge, by ordering the software kit part number referenced in the table below.

Part Number	Description	List Price
330020-744	TLS-450PLUS, TLS4 Series Operating Software Upgrade	No Charge
