Marketing Sales Release
Software Release Version 7G
TLS-450PLUS and TLS4 Series Consoles

1.0 Purpose

This Marketing Sales Release (MSR) announces the release of version 7G software for TLS-450PLUS and TLS4 Series consoles.

2.0 Description and Overview

The Veeder-Root strategy is to provide software releases on a regular cadence in order to furnish additional functionality, inclusion of customer requests and other enhancements in a timely manner. The following information outlines the modifications in this release.

2.1 Version 7G Features / Benefits & Software fixes

a. Features /Benefits

i. **Line Feed Count for Printers**

   1. Added programmable line feed count functionality to Printer Setup Screen so users can customize the default spacing on a printout.

ii. **Automatic Estimated Delivery Reports**

   1. Added Estimated Delivery Reports to Auto Events for users of Business Inventory Reconciliation (BIR). This enables the report to be automatically printed as an alternative option to Standard and Adjusted Delivery Report Auto Events.

iii. **Security Updates**

   1. **Enable / Disable SSH Port**

      a. Provides users the option to enable or disable SSH connections on a designated SSH Port within System Setup.

   2. **Enable / Disable HTTPS Port**

      a. Provides users the option to enable or disable the use of the Web Server via the HTTPS Port within System Setup.

iv. **Existing Feature Warning**

   1. When performing a system feature upgrade, a pop-up screen will alert the user if that system feature is already installed on the console.

3.0 Release Schedule

Veeder-Root recommends keeping console software upgraded to the latest version. These software releases may address issues or vulnerabilities that could cause problems in currently installed gauges. **We recommend TLS-450PLUS and TLS4 Series customers upgrade to the latest version of software available.**

Version 7G consoles starting shipping March 13, 2017

The TLS-450PLUS and TLS4 Series software upgrades can be downloaded directly from the veeder.com site:
http://www.veeder.com/us/content/automatic-tank-gauge-software

Software upgrades can also be ordered on a USB Flash drive at no charge for a limited time by ordering the software kit below:

Software Upgrade Kit – TLS-450PLUS, TLS4 Series Consoles

Part Number	Description	List Price
330020-744	TLS-450PLUS, TLS4 Series Operating Software Upgrade	No Charge

As a best practice when upgrading software, Veeder-Root recommends verifiying that the Universal Sensor Module (USM) and Input/Output Module (IOM) are operating with the latest firmware version. Instructions for a USM or IOM firmware update can be found in *Continuing Education Bulletin 2015-08B, Firmware Upgrade*.
