BOOST CUSTOMER LOYALTY Disinfect with a proven formula

Disinfectant • Antibacterial • Antiviral • Antifungal
Follow up your cleaning routine with a disinfectant to kill bacteria, germs, and viruses.

1 24 Hours of Protection*

- EPA registered, broad spectrum antimicrobial disinfectant with unique 24 hour residual effectiveness.
- Kills everyday household germs AND the most deadly of super bugs

2 Easy to Apply, no PPE Required

- Ready-to-use formula, no mixing required.
- Non-hazardous, non-flammable, non-corrosive, and odorless, without the harsh fumes or skin irritation associated with traditional disinfectants.
- Safe enough for children and pets; strong enough to kill the most dangerous viruses.

3 Tested and Approved by Gilbarco

- Rigorous testing means you have peace of mind the formula will not damage your equipment.
- Safe for use on all surfaces, including Dispensers, Hanging Hardware, and Point-of-Sale Systems.

4 Environmentally Friendly

- Green manufacturing process produces zero discharge with no waste or byproducts
- Made in the USA

*Pre-clean surfaces prior to using. Apply with a microfiber towel for best results.

Safe for use on all surfaces.

Point-of-Sale • Screens • Pinpads • Panels/Fascia
