

# Software Release Version 10.T

## TLS-450PLUS and TLS4 Series Consoles

### Purpose

This document announces the release of version 10.T software for the TLS-450PLUS and TLS4 series consoles. Veeder-Root always recommends downloading the most up-to-date software to ensure optimal site and equipment performance.

### ► Performance Enhancements

#### Intelligent Pump Control (IPC) Enhancements

- IPC is now compatible with the Secondary Containment Vacuum Sensing System (SCVS), the Red Jacket® IQ Control Box, and the new Red Jacket IQ2 Smart Controller

#### HydrX™ Fuel Conditioning System Enhancements

- Functionality for low throughput sites

#### Ongoing Improvements

- Version 10.T includes miscellaneous bug fixes and updates, including HydrX Polish Cycle Duration

### ► Software Upgrade Download – TLS-450PLUS, TLS4 Series Consoles

Software upgrades are always free to download on our website at [veeder.com/us/software-downloads](https://veeder.com/us/software-downloads).

### ► Documentation

For more information on the software download process, refer to [TLS-450PLUS/TLS4 Operator's Manual \(577014-110\)](#).
