TLS-350 Series ATG Spare Parts Update

Overview

Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leader in the development of fueling system technology, we view product End of Sale (EOS) as part of the natural cycle that drives technology evolution.

Due to the lack of availability of several components needed to manufacture and support various parts of the discontinued TLS-350 Series consoles, Veeder-Root has determined, **effective immediately, we can no longer produce the following products:**

Part Number	Description
0330020-546	Maintenance Tracker Field Support Kit
0331408-001	Dispenser Control Module

▶ Targeted Market

Global Regions

 North America	 ANZ
 LATAM	 SEA
 EU	 China
 MEA	

▶ Transition Details

Veeder-Root values its long-standing partnership and encourages customers with TLS-350 and TLS-300 consoles to consider upgrading to the TLS-450PLUS or TLS4 Series Automatic Tank Gauges (ATGs).

These updated models offer benefits such as remote connectivity, enhanced security, lower total cost of ownership, and expanded capabilities.

Channel Partners are encouraged to connect with customers operating legacy Veeder-Root ATGs to communicate the EOS and how they can utilize the ATG Trade-Up Program to future-proof their stations.
