

THE PLUS VIEW APP INSTRUCTIONAL GUIDE

THE PLUS VIEW is a free mobile app available for download on Android or Apple iOS mobile/tablet devices for remotely accessing inventory, delivery, and alarm data for your TLS-450PLUS & TLS4 Series ATGs. See data in real-time for remote on-site displays or more remote mobile applications.

- Station overview for an immediate status check on tank inventory
- Reports tab allows quick access to inventory and last delivery reports
- Alarms tab gives instant access to view active alarms at a site
- Pin favorite sites for easy access in the Station List
- Request a fuel delivery or email a technician for support in the app to optimize workflows

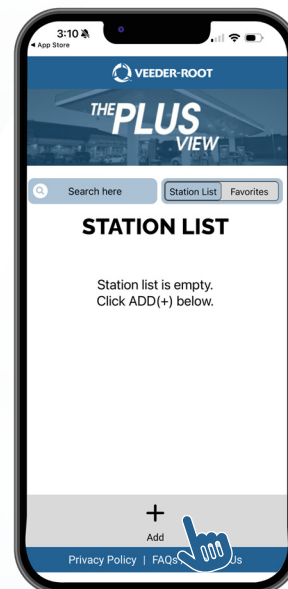

▶ 1. DOWNLOAD THE APP

Type **The Plus View** into the Google Play Store or Apple App Store. Select and install the app. No password is required for this.

▶ 2. GETTING STARTED

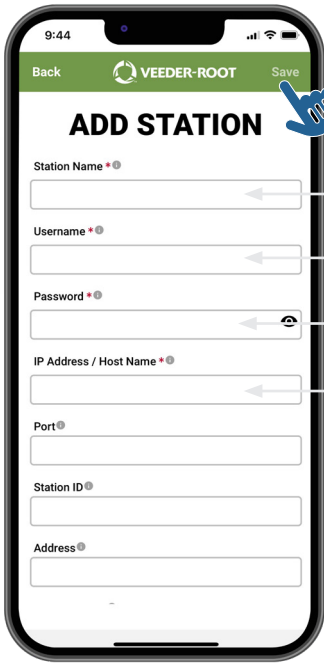

The screen shown here is the initial view when you start. To proceed, click the **ADD** button at the bottom.

▶ 3. ADD SITES

In this screen, you will create up to 4 “custom” named station(s). You can call these stations whatever you like. The only thing you cannot change is the user name, password, and IP address.

Listed below are the available station addresses you may use to create your demo list.

FIELD PARAMETERS

Station Name: Any name you’d like for the site

Username: demo

Password: demo1

IP Address / Host Name: Use from the options in the table below

All other fields are optional. You may fill them out to appear realistic or leave them blank. When you are finished, click the **SAVE** button at the top.

STATION NAME	USERNAME	PASSWORD	IP ADDRESS
[Any Name]	demo	demo1	12.34.214.54
[Any Name]	demo	demo1	12.34.214.58
[Any Name]	demo	demo1	12.34.214.59
[Any Name]	demo	demo1	12.34.214.60

▶ 4. ACCESS SITES

Once you are finished, your home screen will list all sites you’ve added. To see detail about a site, simply click on the site’s name.

The Inventory tab will show inventory levels.

The Deliveries tab shows fuel delivery history.

The Alarms tab shows site alerts.
