Hub in Action

Unlock the Future of C-Store Management

Josh Lehman – Hub Platform Senior Product Manager

Why the Hub, What We Heard

“I don’t want to manage different users and logins for different tools; I need it all in **one place.**”

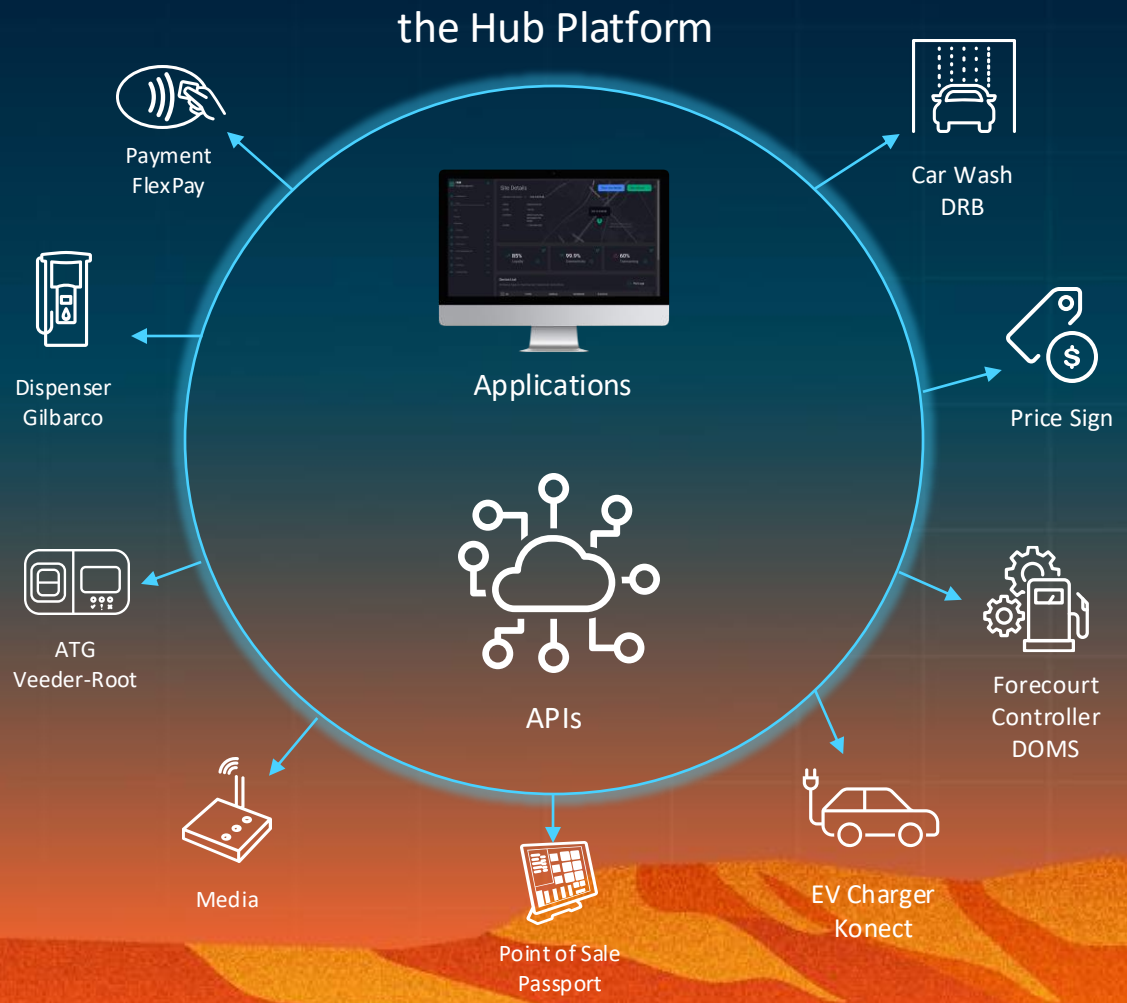

“The amount of assets I am managing is growing; I need a **single pane of glass** to manage everything.”

“I want to **build my own solutions** with my data and available actions using APIs.”

“I need the ability to **customize my tools** to make them best fit my unique company.”

“I depend on these systems; **I need them reliable** and available when I need it.”

The Hub Platform & Asset Management Applications

Reduce logins

Increase application uptime

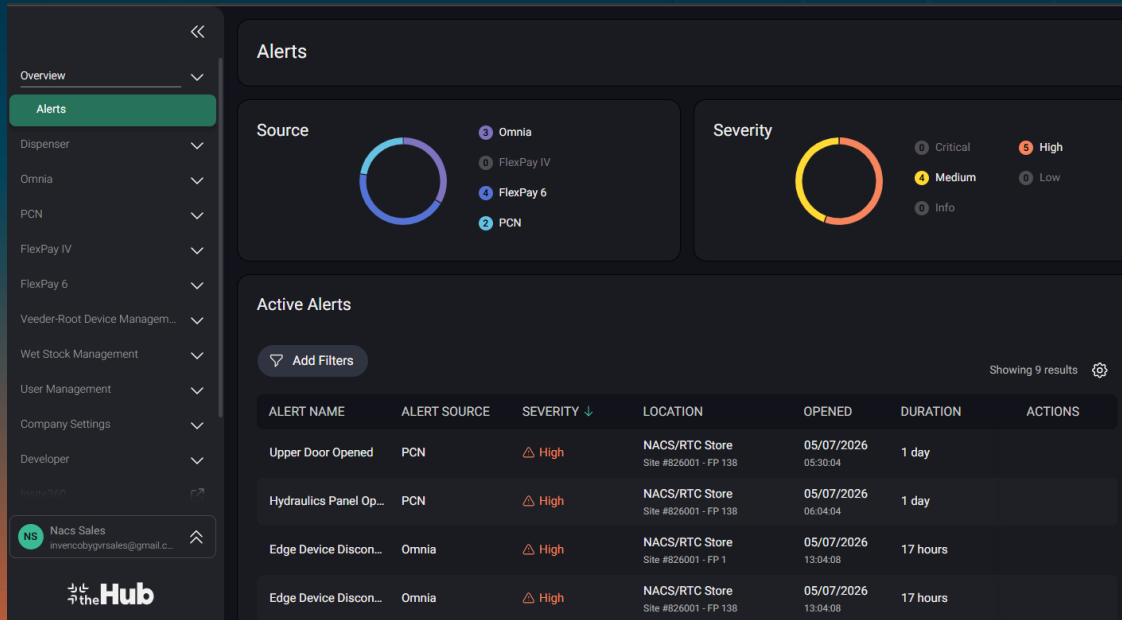

Simplified security & compliance

Hub: The Platform That Powers Our Applications

What is the Hub Platform?

- A single, modern platform that hosts and runs applications

What are Applications?

- Individual business solutions available for purchase
 - Examples:

Veeder-Root Device Management

Wetstock Management

Hub Login & Navigation Demo

RTC26

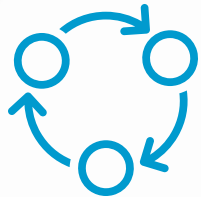

Unified Login

Access & Authentication

- Users access the Hub using email, password, and MFA
- Supports single sign-on (SSO) with corporate identity providers

Seamless Experience

- Once logged in, users have access to all Hub applications they have purchased
- Seamless navigation to Insite360 or ICS platforms without additional logins

User + Security Benefits

- Eliminates repeated logins and reduces password fatigue
- Improves user experience while maintaining enterprise security

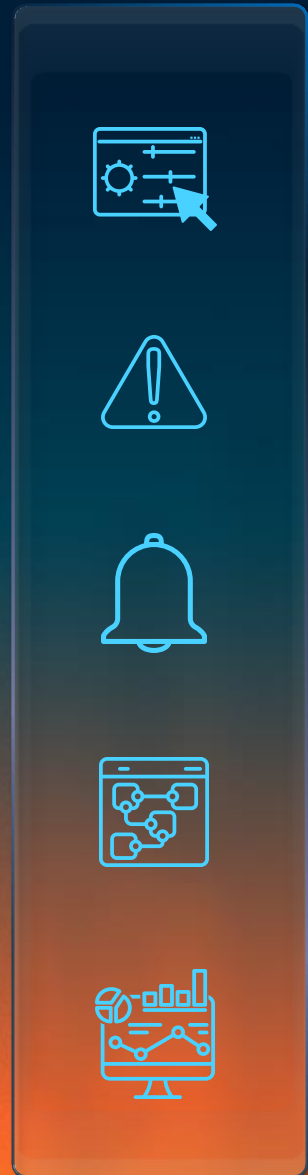

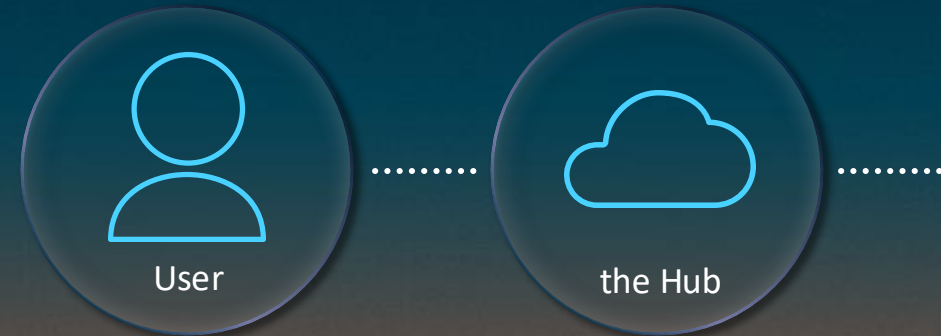

Hub Alert, Site, and User Management Demo

RTC26

Single Pane of Glass – Alert, Site, User Management

- ✓ Unified alert management view to triage and act on all alerts across store systems to cut MTTR and improve uptime.
- ✓ Quickly identify and prioritize issues from one dashboard.
- ✓ Alerts resolution suggestions to quickly pinpoint issues and quick actions to resolve
- ✓ Manage all user's access to any application and any site in one place.
- ✓ More easily manage sites using site all in one platform with site tags.

Hub Developer Portal Demo

RTC26

Single Pane of Glass – Developer API Portal

- ✓ Centralized catalog of all available APIs
- ✓ API Swagger documentation
- ✓ Self-service credential and key management
- ✓ Faster onboarding and development through a single portal
