

End of Sale Notification

TLS-350 and TLS-300 Pressure Line Leak Detectors

Overview

Veeder-Root is committed to providing the highest quality products and services to our customers. As the world leader in the development of fueling system technology, we view product End of Sale (EOS) as part of the natural cycle that drives technology evolution.

Due to the limited availability of critical components used in our legacy console family, Veeder-Root will obsolete the following part numbers **effective January 1, 2027**. These products will be available until prior to this date or until component inventory required for production is no longer available, whichever comes first.

► Impacted Equipment

Part Number	Description	Region	List Price
0848480-001	Pressurized Line Leak Detector Sensor without SwiftCheck, UL	North America	\$1,961.00
0848480-003	Pressurized Line Leak Detector Sensor with SwiftCheck, UL	North America	\$3,057.45

Note: This end-of-sale does not impact TLS-450PLUS-compatible Digital Pressure Line Leak Detectors (DPLLDs).

► Transition Details

Veeder-Root encourages customers with TLS-350 and TLS-300 consoles to consider upgrading to the TLS-450PLUS or TLS4 Series Automatic Tank Gauges (ATGs).

These updated models offer benefits such as remote connectivity, enhanced security, lower total cost of ownership, and expanded capabilities.

Sales representatives are urged to connect with customers operating legacy Veeder-Root ATGs to discuss the product's end of sale and demonstrate how upgrading to the TLS-450PLUS and TLS4 Series ATGs will protect their investment, strengthen defenses against evolving cybersecurity threats, and ensure long-term station performance.

Learn how the TLS-450PLUS upgrade can help your customers modernize their tank gauging system with enhanced capabilities, improved connectivity, and a clear path forward. Explore the upgrade options here: veeder.com/upgrade.

If your customer has this...

TLS-350 Series Console

They should upgrade to this...

TLS-450PLUS

► Product Transition Information: TLS-450PLUS

Part Number	Description
0860091-301	TLS-450PLUS Console with 8" WVGA Color Touch Screen Display, Printer, 3 Ethernet and Dual USB/Expansion, Dual RS-232, UL/cUL
0860091-302	TLS-450PLUS Console with 8" WVGA Color Touch Screen Display, Printer, 3 Ethernet and Dual USB/Expansion, Dual RS-232/RS-485, UL/cUL

If your customer has this...

TLS-300 Series Console

They should upgrade to this...

TLS4/4B

► Product Transition Information: TLS4 & TLS4B

Part Number	Description
0860190-020	TLS4 Console, Color Touch Screen Display, EDIM, UL
0860196-020	TLS4B Console, Color Touch Screen Display, EDIM, UL

ATG Trade-Up Program

Did you know the Veeder-Root ATG Trade-Up Program not only provides excellent credits on new TLS-450PLUS and TLS4 Series ATGs, but also extends the warranty on existing, connected Veeder-Root probes, float kits, and sensors*? Reach out to your Veeder-Root sales representative today to learn more about this fantastic program!

** Mag-FLEX and capacitance probes are excluded from this warranty extension.*

EXTEND YOUR WARRANTY
